ROLL NO: 231901044 **NAME: SABTHAGIRI A**

Experiment 2

Defining Governance Structures - Entity Types & Entity Generation

Aim

To define and establish the organizational governance structure in Eramba by creating business units and defining organizational liabilities.

Procedure

1. Login to the Eramba Dashboard.
2. Navigate to **Organization → Business Units**.
3. Create and configure the required business units along with descriptions and designated business unit contacts.
4. Navigate to **Organization → Liabilities**.
5. Create organizational liabilities, associating appropriate descriptions, liability contacts, and risk magnifiers.
6. Verify the created business units and liabilities in the Eramba interface.
7. Open individual business unit and liability records to review properties, status, and dynamic relationships.

Output

Business units and organizational liabilities were successfully established, configured, and displayed in the Eramba dashboard.
