ROLL NO: 231901044 **NAME: SABTHAGIRI A**

Experiment 4

Executing Qualitative Risk Assessments

Aim

To assess identified business risks qualitatively in Eramba by evaluating their Likelihood and Impact and determining the risk score.

Procedure

1. Go to Risk Management → Business Risks.
2. Select **Business Interruption**.
3. Open the **Analysis** section.
4. Select/review the Likelihood and Impact values.
5. Verify the automatically calculated Risk Analysis Score.
6. Save the assessment.

Output

The **Business Interruption** risk was assessed as:

- **Likelihood:** Medium
- **Impact:** Very High
- **Risk Analysis Score:** 6
- **Business Unit:** Operations

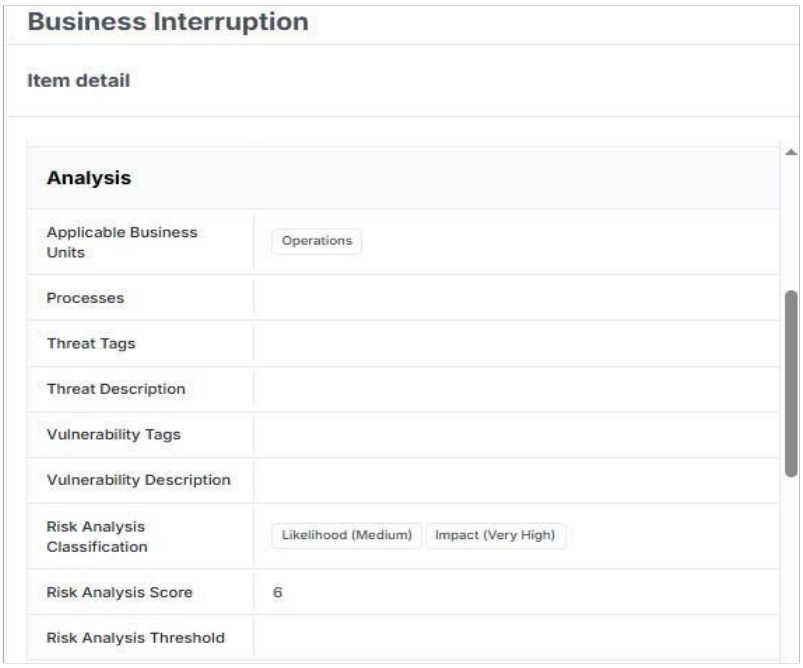

Fig 4.1 – Qualitative Risk Assessment of Business Interruption

Result

The qualitative risk assessment was successfully completed in Eramba, and the risk score was calculated based on the selected likelihood and impact values.
